SKI AREA

A RECORD-BREAKING SKI AREA

There's no need to introduce the 3 Vallées ski area: in the heart of the Savoie region, it's the biggest ski area in the world with 600km of pistes, with people coming from far and wide to enjoy the privilege of skiing there! It's also an area in which 85% of the pistes are located at an altitude of more than 1800m, which guarantees optimum snowfall from early December until the end of April. A wide variety of pistes, all-day sunshine and majestic views: the ski area has something for everyone – whether they're young or old, a beginner or an experienced skier or snowboarder! Known for its friendly atmosphere, the Les Menuires resort stands out with its wide range of activities and facilities which welcome anyone who's looking to relax, whether they're skiers or not. The resort is particularly child-friendly, with plenty of skiing and sledging spots just for younger visitors.
